### Homepage (<https://pp4-recipebook.herokuapp.com/>)

 <https://pp4-recipebook.herokuapp.com/>

### Browsing pages

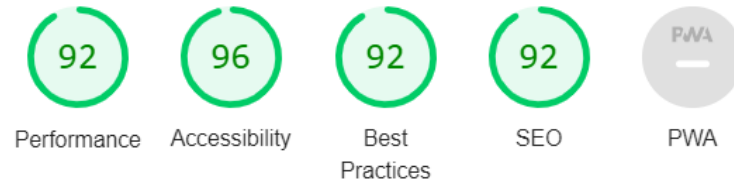

#### New (full) (<https://pp4-recipebook.herokuapp.com/browse/new>)

 <https://pp4-recipebook.herokuapp.com/browse/new>

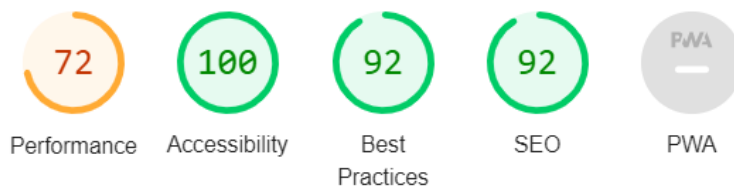

#### Gluten Free (empty) (<https://pp4-recipebook.herokuapp.com/browse/gluten-free>)

 <https://pp4-recipebook.herokuapp.com/browse/gluten-free>

#### Search Results (<https://pp4-recipebook.herokuapp.com/search/>)

 <https://pp4-recipebook.herokuapp.com/search/>

Unfortunately, I was unable to improve the Performance score on the search results page above 72, despite following advice Lighthouse gave about pre-connecting and eliminating render-blocking. I chose to remove the changes they suggested as the styling of site became compromised.

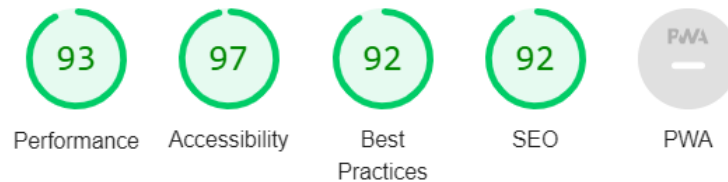

#### Login (<https://pp4-recipebook.herokuapp.com/accounts/login/>)
